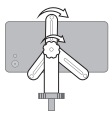
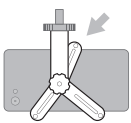
# SQUARE JELLYFISH UNIVERSAL SMARTPHONE TRIPOD MOUNT
# USER'S MANUAL

Thank you for purchasing the new Universal Smartphone Tripod Mount. This product was designed to hold most brands of smartphones to a tripod. Follow these step-by-step directions to learn how to correctly use your Tripod Mount.

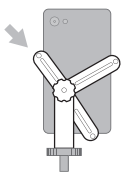
- Once your tripod is on level ground and completely stable, screw on the Tripod Mount.
- Loosen the rear knob and rotate the shortest arm to the top of the device.
- Place the bottom of your smartphone on the two longer arms.
- Rotate the short arm to the right. Once it is flush against the top of your smartphone, tighten the rear knob.



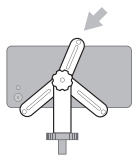
- For vertical use, the short arm should be on the left leaving one arm on the bottom of the smartphone and the other on the right side.
- Do not let go of phone until it is properly balanced in the mount and in contact with all three arms.
- Do not carry the tripod with the smartphone installed. When you move the tripod, remove the smartphone.
- Some smartphone cases might be slippery, so take extra precautions for these types of cases.
- This product is designed to hold the phone steady on a tripod while taking a picture. It is not designed to be mounted to a moving object or vehicle.
- This product contains small parts that may be a choking hazard. Keep out of reach of children.



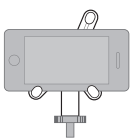
**GOOD**
Short arm on top and to the right.



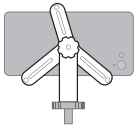
Short arm on the left towards the top.



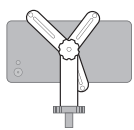
Short arm on top and to the right.



All arms should be tight against the case



Short arm should be to the right



Two arms should be on the bottom.

Note: If desired, apply adhesive felt dot to front of assembly to help protect your phone or case from scratching.
